

## Media (Video, Film, TV, Journalism and Radio)

Ideal if: you want to explore digital film and video, and some aspects of photography

You'll learn: basic lighting and sound techniques, and gain experience of working collaboratively using DSLRs and other equipment.

Expect to: gain work-related experience by completing exciting practical briefs and to regularly create your own media footage.

You'll love: planning and producing practical assignments, and working with industry professionals on live projects.

This course gives you the opportunity to explore digital film and video and some aspects of photography. Your studies will include • Use of industry standard software, for example InDesign and PhotoShop • Practical assignments and live projects with industry professionals.

“Teachers are well qualified and experienced; they are passionate about their subject and impart their knowledge and understanding with enthusiasm.” (Ofsted, 2016)
