

Carpentry and Joinery Apprenticeship Standard

This apprenticeship standard is suitable for site carpenters and architectural joiners with responsibility for managing their own and other people's work, as well as being required to complete complex and non-standard work such as curved products, irregular joints and bespoke work. Apprentices will be able to undertake complex tasks, requiring high levels of practical skills and knowledge, in addition to managing their own work and leading small teams.

Pathway 1:

An Advanced Site Carpenter will normally work on a building site, or in domestic and commercial premises, preparing and installing complex and often bespoke building components.

Pathway 2:

: An Advanced Architectural Joiner will normally be employed in a workshop, producing complex building components by setting out, marking out and manufacturing bespoke architectural products.

Delivery model and duration: 1 day per week in college
Duration: Up to 15 months including End Point Assessment

Ideal for: • Level 2 apprenticeship completers • Advanced Site Carpenters • Advanced Architectural Joiners

The apprenticeship will cover the following core areas: • Health and safety • Effective communication • Effective teamwork • Leadership • Interpretation and ability to follow verbal work instructions • Calculate quantity, length, area and wastage of resources

Benefits for learners: • Receive training from experts with years of industry experience • Become occupationally competent

Entry Requirements

Functional Skills English and mathematics Level 2 or equivalent GCSE grades. Level 2 Carpentry and Joinery Qualification.

What's Next

Completers may want to progress to Advanced carpentry and joinery roles. Upon completion, the apprentice will meet the requirements to obtain a Construction Certification Scheme (CSCS) Card.
