

## Brickwork/Trowel Occupations Apprenticeship

This apprenticeship Framework is awarded by Cskills Awards, and is great for people who enjoy working outdoors as part of a team. Apprentices will build new houses using a variety of materials including brick and block, as well as build house extensions, repair buildings and construct decorative walls.

Apprentices may have the opportunity to work one to one, or on larger jobs they may also collaborate with other trades. This apprenticeship trains skilled workers with a good overall knowledge of construction.

Qualification:

Level 2 NVQ Diploma in Trowel Occupations  
Level 2 Diploma in Bricklaying

Delivery model:

1 day per week in College, with workplace experience and guidance in between.

Duration: 24 months

Ideal for:

Construction workers  
General labourers

The apprenticeship will cover the following core areas:

Health and safety  
Building and construction methods  
Types of masonry structures  
Communication  
Building technology
