The College is responsible for ensuring that adequate quality measures are in place, in line with the Funding Rules.

The purpose of this policy is to provide guidance for the appropriate use and distribution of the Student Support Fund. This enables us to ensure the students requiring the most support are prioritised.

AIMS

The Student Support Fund cannot assist with tuition fees; other payment options may be available and will need to be discussed with Student Services at the time of enrolment.

OBJECTIVE

To ensure that students' applications to the support fund are assessed in line with the eligibility criteria set out in the policy.

To ensure that students are awarded financial support in line with the amounts and criteria set out in the policy, so this is applied consistently across our student body.

To ensure that students have a right to appeal to any decision made, where their individual circumstances may be taken into consideration.

RESPONSIBILITIES

The College Principal and Executive team are responsible for meeting financial regulations in line with policy.

The Student Support Manager and Student Support Co-Ordinator are responsible for managing and monitoring the use and distribution of the allocation.

The Head of Student Support is responsible for ensuring all those with responsibility for the management of the fund are trained and the work cycles are audited.

The Student Support team are responsible for gathering sufficient evidence as proof of eligibility and processing applications accurately and in line with this policy.

Students are responsible for providing evidence of eligibility and informing Student Support of any change of circumstances, which may affect their award.
