

## Construction and the Built Environment

This Higher National qualification is aimed at students wanting to continue their education through applied learning and experience a wide-ranging study of the construction and the built environment sector. It is intended for students who wish to pursue or advance their career in industry where a variety of technical roles such as architectural technician, site supervision or surveying could be followed.

The course is designed to give students an experience of the breadth and depth of the sector that will prepare them for further study (degree level) or training.

The units of study will include:

- Construction Technology
- Science & Materials
- Construction Practice and Management
- Legal & Statutory Responsibilities in Construction
- Construction Information (Drawing, Detailing, Specification)

In addition you will undertake a subject related project.

As a part time programme, you will study over two years, attending college one day per week. The course places a large demand on your personal time and you should therefore allow for approximately 8 hours of self-study each week.

Please see Gloucestershire College's Admissions Policy and Code of Practice available at <http://www.gloscol.ac.uk/about-us-and-jobs-at-gc/partnerships-and-governance/governance/policies> (subject to agreed amendments). Gloucestershire College's Admissions Policy and Code of Practice has been written based on guidance from external bodies that regulate consumer law, customer protection and education standards. If you have any queries about either Gloucestershire College's Admissions Policy or Code of Practice, please contact Gloucestershire College's Admissions department via telephone 01242 532008 or [applications@gloscol.ac.uk](mailto:applications@gloscol.ac.uk)

Please note that modules could be subject to change but any such changes, to module delivery, would be in consultation with the students.

## Entry Requirements

You will need to have achieved a BTEC Level 3 qualification in Construction or have at least one GCE A level pass with appropriate supporting passes at GCSE A\*-C (grade 4) in English language, mathematics and science.

Mature students may present a more varied profile of accomplishment that is likely to include extensive work experience and/or achievement of a range of professional experience.

## What's Next

Your options after completion of the course are to convert your (HNC) Certificate to an (HND) Diploma or apply to university to top up your qualification to a full degree.
