

# PLUMBING AND DOMESTIC HEATING TECHNICIAN APPRENTICESHIP LEVEL 3

City & Guilds

For new or existing staff

Plumbing & domestic heating technicians size and select, plan and install, service, maintain and commission plumbing and domestic heating systems. All technicians will be required to work on typical plumbing elements such as hot and cold water systems and storage, supplies to dwellings and associated pipework, above-ground pipework, connection to below-ground, sanitary pipework, fittings and furniture. Appliances and equipment can include central heating boilers, bathroom furniture, sanitary appliances, drainage and rainwater systems.

## Qualification

**City & Guilds Level 3 Plumbing and Domestic Heating Qualification and pathway specific qualification on completion of your End Point Assessment.** This will enable you to register yourself with a regulated body in line with the route you have chosen.

### Delivery model and duration:

Apprentices will attend college for one day per week. Theory lessons will be reinforced in the workplace and practical skills will be practiced and enhanced in college and the workplace. This can be supported by some remote delivery if required.

**Duration: 48 months plus 6 months  
End Point Assessment**

### Ideal for:

- Plumber
- Domestic Heating Engineer/installer
- Plumbing and Domestic Heating Engineer/installer

### The apprenticeship will cover the following core areas:

- Health and safety
- Core plumbing systems
- Electrical components and control system
